BUTLER 722

Electric wardrobe lift

With BUTLER 722, the height of the wardrobe can be used to the full. A simple push of a button lowers the clothes rod by 112 cm.

A person of normal height can easily reach up to 190 cm which means the clothes rod in its upper position can be 300 cm above the floor.

Thus, the lower part of the wardrobe can be used for another clothes rod or other form of storage.

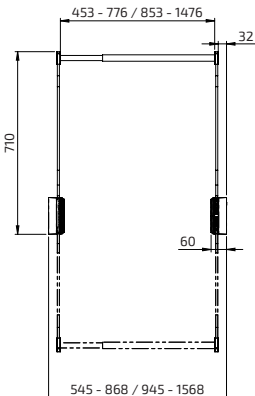

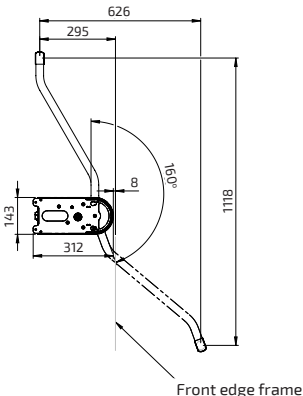

Functions and advantages

- Motorised adjustable clothes rod, 111.8 cm downwards
- Maximum load 30 kg
- Telescopic clothes rod for cabinet with inner dimensions 54.5 to 156.8 cm
- Modern and discreet design
- Collision protection stops the lowering of the wardrobe rail if it comes into contact with any object
- Silent motors that take up little space
